

RentEase

Using technology to provide you with the most comprehensive, industry-leading property management in Australia.

One of our aims at Property People is to make managing your investment portfolio as simple as possible, while ensuring that you are maximising your investment property returns.

We have invested heavily in technology to improve the level of communication we provide and as a result the service we deliver. As an investment property owner with Property People, you're provided with the option of membership to our online system. This will give you complete visibility of your investment property details 24 hours a day, 7 days a week – no matter where you are.

With RentEase, you are able to review invoices and statements, full tenancy details and all property documentation including photos and inspection reports. It works similarly to online banking, whereby you receive a membership ID and password and will be able to log on and see all your property details at any time. This allows you to have straightforward, up to date, accurate information at your fingertips.

We're committed to providing the most comprehensive, industry-leading property management in Australia. If your property information is not currently available using RentEase and you would like to be able to view your property details on our online portal, please call Property People and ask to speak to our friendly Business Development Manager on 9208 1999.

Useful tip

A man in a light blue shirt is sitting at a desk. He is smiling and looking towards the camera. He is holding a smartphone in his right hand. In front of him is a laptop computer. The background is a blurred office setting.

With RentEase you'll never lose paperwork for your investment property again. You can even give your accountant your log in details so they can access invoices and statements for your property, making it quicker and easier to process your tax return.

Simple and convenient – that's what the RentEase portal is all about. It provides you with useful tools to manage your property portfolio when and where you choose. Whether it's checking your statement, changing your contact details or viewing inspection reports, RentEase puts you in control and makes owning an investment property easy.

Transparency and Accountability

With RentEase Online you can:

See a list of all your investment properties that are managed by RentEase with one log in, including an investment property report on the opening page showing you a summary of the vital statistics.

View tenancy details

- See the lease start date
- Open a copy of the signed lease
- See the bond amount and when it was lodged

Rent

- View the current weekly rental amount
- Find out what date the rent is paid to
- See when the last rent review was, plus a detailed history of rent increases

Insurance

- See a list of the policies you have covering your property, including details of the insurance agency, policy number and expiry/renewal date

Financials

- Access a complete history of monthly statements
- Open copies of end of financial year statements
- View depreciation schedules
- View a complete history of expenses and open copies of invoices
- Change your bank account details to allow funds to go into a new account

Update details

- Update your personal contact details, including your street and postal address, after hours phone number and email address
- Update your emergency contact details
- Change your preferred method of contact
- Choose how you receive statements – via email or post
- Contact your property manager

Documents

- See photos of your property
- View copies of routine inspection reports
- See when the next routine inspection is booked for
- Access copies of entry and exit condition reports

Register now and start enjoying the convenience of monitoring your investment property with RentEase.
