Competent Person Declaration

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Dr Matthew Painter of Sabre Resources Ltd, who is a member of The Australasian Institute of Geoscientists. Dr Painter has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Dr Painter consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

About Sabre Resources Limited

Sabre Resources' ("Sabre") primary focus is the exploration and development of the Ongava Multi-Element Project in Namibia. Our licence contains more than 30 known copper, lead, zinc and vanadium occurrences, ranging from grass-roots prospects such as the Kaskara copper-lead-zinc play, through unmined deposits such as the Border and Driehoek lead-zinc deposits, to historic mine sites such as Harasib Claims and Uitsab. Gallium, germanium, silver and gold, are also highly prospective.

Based in Perth, Australia, Sabre will build value for shareholders through the definition of a JORC compliant resources in this metal-rich region. Extensive exploration, management and corporate experience are combined in a lean company structure that aims to provide maximum return to shareholders.
